

## CyrusOne Colocation Selected as Ideal Solution for OvationData's Big Data Transfer and Management Services

November 15, 2018

*CyrusOne offers cost, performance, and security benefits over cloud solutions*

HOUSTON--(BUSINESS WIRE)--Nov. 15, 2018-- CyrusOne (NASDAQ: CONE), a premier global data center REIT, today announced it has been selected to provide colocation and interconnection, by Ovation Data Services, Inc. (OvationData), a leading data services provider for multiple industries in Europe and the United States, with a major concentration in seismic data for the purposes of oil and gas exploration. OvationData will deploy the solution on CyrusOne's Houston West Data Center campus.

"As a data service provider in the energy industry, OvationData regularly transfers enormous volumes of data between customers and partners," said Gregory G. Servos, president and chief executive officer, OvationData. "The CyrusOne colocation environment now enables digital asset dataset management and migration across diverse infrastructures, including multiple public clouds as well as direct connections between OvationData and our customers that are also in the CyrusOne data center. The energy industry ecosystem CyrusOne has created containing many major players in energy exploration provides OvationData with a significant competitive advantage in executing our growth strategy for the energy sector as well as providing access to customers in other verticals, including media and entertainment."

"CyrusOne is pleased that our energy industry ecosystem in Houston provides an opportunity for OvationData to offer innovative services in the sector," said John Gould, executive vice president, global sales, CyrusOne. "Colocation in proximity to other CyrusOne customers along with the public cloud access is a great benefit for many companies, as shown by OvationData leveraging the 'digital oil field' ecosystem in Houston to serve our mutual customers."

CyrusOne operates over 45 [data center facilities](#) across the United States, Europe, and Asia to provide customers with the flexibility and scale to match their specific IT growth needs. CyrusOne facilities are engineered to include the power-density infrastructure required to deliver high availability, including architecture with the highest available [power redundancy \(2N\)](#).

### About CyrusOne

CyrusOne (NASDAQ: CONE) is a high-growth real estate investment trust (REIT) specializing in highly reliable enterprise-class, carrier-neutral data center properties. The company provides mission-critical data center facilities that protect and ensure the continued operation of IT infrastructure for approximately 1,000 customers, including more than 200 Fortune 1000 companies and nine of the top 10 cloud providers.

With a track record of meeting and surpassing the aggressive speed-to-market demands of hyperscale cloud providers, as well as the expanding IT infrastructure requirements of the enterprise, CyrusOne provides the flexibility, reliability, security, and connectivity that foster business growth. CyrusOne offers a tailored, customer service-focused platform and is committed to full transparency in communication, management, and service delivery throughout its more than 45 data centers worldwide.

### About OvationData

For over 30 years, OvationData has specialized in data management services to the Exploration & Production industry. With Technology and Service Centers in the United States and United Kingdom, and operating globally, OvationData is recognized as a leader in the science and technology for the management and preservation of digital information.

Today, via its various "X"-as-a-Service offerings, OvationData is able to offer in any combination: Transcription, Digitizing, Validating, Storing, Archiving, Computing, Stewardship, Delivery and/or Hosting of enterprise data customized to each individual client. Including Exploration Archives, a GIS web based browser application used to manage, find, view and order seismic data.
