

## Managed Service Division of CyrusOne Addresses Ransomware Incident

December 5, 2019

DALLAS--(BUSINESS WIRE)--Dec. 5, 2019-- CyrusOne Inc. (NASDAQ: CONE) a premier global data center REIT, today announced its managed service division is working to restore availability issues to six managed service customers due to a ransomware program encrypting certain devices. The customers are primarily serviced by CyrusOne's New York Data Center.

CyrusOne's data center colocation services, including IX and IP Network Services, are not involved in this incident.

Upon discovery of the incident, CyrusOne initiated its response and continuity protocols to determine what occurred, restore systems and notify the appropriate legal authorities. The investigation is ongoing and CyrusOne is working closely with third-party experts to address this matter.

### Safe Harbor Note

This release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Company intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and includes this statement for purposes of complying with these safe harbor provisions. All statements, other than statements of historical facts, are statements that could be deemed forward-looking statements. These statements are based on current expectations, estimates, forecasts, and projections about the industries in which the Company operates and the beliefs and assumptions of the Company's management. Words such as "expects," "anticipates," "predicts," "projects," "intends," "plans," "believes," "seeks," "estimates," "continues," "endeavors," "strives," "may," variations of such words and similar expressions are intended to identify such forward-looking statements. In addition, any statements that refer to projections of the Company's future financial performance, the Company's anticipated growth, and trends in the Company's businesses, the potential impact of the ransomware incident described in this press release and other characterizations of future events or circumstances are forward-looking statements. Readers are cautioned these forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties, which could cause the Company's actual results to differ materially and adversely from those reflected in the forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in this release and those discussed in other documents the Company files with the Securities and Exchange Commission (the "SEC"). More information on potential risks and uncertainties is available in the Company's recent filings with the SEC, including the Company's Form 10-K report, Form 10-Q reports, and Form 8-K reports. The Company disclaims any obligation other than as required by law to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors or for new information, data or methods, future events or other changes.

### About CyrusOne

CyrusOne (NASDAQ: CONE) is a high-growth real estate investment trust (REIT) specializing in highly reliable enterprise-class, carrier-neutral data center properties. CyrusOne provides mission-critical data center facilities that protect and ensure the continued operation of IT infrastructure for approximately 1,000 customers, including more than 200 Fortune 1000 companies.

With a track record of meeting and surpassing the aggressive speed-to-market demands of hyperscale cloud providers, as well as the expanding IT infrastructure requirements of the enterprise, CyrusOne provides the flexibility, reliability, security, and connectivity that foster business growth. CyrusOne offers a tailored, customer service-focused platform and is committed to full transparency in communication, management, and service delivery throughout its nearly 50 data centers worldwide.
