Global Data Center Services Provider CyrusOne President and CEO, Gary Wojtaszek, Scheduled to Speak at Gartner Symposium/ITxpo

Joint Presentation with T-Systems to focus on the risks of building and maintaining a company-owned data center

Cincinnati (October 18, 2012) – Global data center services provider, CyrusOne, a wholly owned subsidiary of Cincinnati Bell (NYSE: CBB), announced today that president and CEO, Gary Wojtaszek, is scheduled to speak at the Gartner Symposium/ITxpo 2012 in Orlando, Fla., October 21–25.

Wojtaszek's presentation, "Avoiding the Ultimate Gamble—A New Data Center," will be held at 3:30 pm on Monday, October 22, and will discuss the investment risks of building and maintaining a personal data center. He will be joined by Dr. Greg Smith, Head of Portfolio Solution Design of T-Systems, a global leader in cloud solutions, who will showcase how his company leveraged CyrusOne as a best-of-breed partner to ensure a stable, secure, and always-up environment.

"Building a data center is one of the most expensive, long-lived bets a global IT executive can make," said Wojtaszek. "Given the uncertainty of changing software, hardware, geographic, and business needs, it's a wager most CIOs are ill equipped to make successfully. Companies can avoid these risks and benefit from the enterprise-level security, redundancy, service, and availability colocation delivers."

CyrusOne specializes in highly reliable enterprise data center colocation, engineering facilities with the highest power redundancy (2N architecture) and power-density infrastructure required to deliver excellent availability. The company has designed facilities across the United States, Europe, and Asia that give customers the flexibility and scale to perfectly match their specific growth needs.

CyrusOne is a sponsor at the Gartner Symposium/ITxpo and will be located in booth MP17. Visitors of CyrusOne's booth will have an opportunity to be entered into a free Solar Power Station Battery Charger giveaway. The charger is compatible with all iPhone® devices up to model 4S, and all generations of the iPad® and iPod®. Winners of the device can benefit from all-day battery life with on-the-go recharging capabilities under direct sunlight—a perfect solution for social-savvy ITxpo attendees.

Renowned for exemplary customer service, CyrusOne's technical experts deliver customized data center solutions. The company's customers include more than 100 of the Fortune 1000 companies and 9 of the Fortune 20. CyrusOne is a wholly owned subsidiary of Cincinnati Bell (NYSE: CBB) and is committed to full transparency in communication, management and service delivery.
